

P8II

A PROFESSIONAL RUGGED & PORTABLE CONTROLLER

With IP67 certification, P8II is designed for anyone who works in harsh environments. With its ergonomic design, the P8II offers easy one-handed use and provides extended flexibility during fieldwork. Featuring an MTK Octa-core 2.0G processor, it provides a user smooth experience. P8II is suitable for different kinds of outdoor applications such as surveys and GIS.

GNSS Receiver

Fresh Vision and Light Weight

Enjoy a slim profile and sleek look, and easily carry it in various complex environments, benefitting from its lightweight and compact design.

Rugged Design

The P8II is IP67 certificated as a rugged device. It survives a 1.5 m drop on a concrete floor.

Impressive Battery Life

Continuously work up to 12 hours in remote areas with limited access to electricity and no longer need to worry about a day's work, with its 5200 mAh rechargeable and replaceable lithium-ion battery, which makes your data save safely.

Dual SIM Cards with 4G Network

The P8II supports dual Nano SIM cards with a 4G network. You can use it for daily work anywhere.

Digital Keyboard

Safely work bare-handed or with gloves in rustic climatic conditions, for P8II has a digital keyboard supporting a stylus pen and a physical alphanumeric keyboard.

High-performance CPU

Equipped with an octa-core 2.0 GHz processor and Android 9.0 system, the P8II brings smooth working experience.
